

# Data flow in CIN validator

**Tambe Tabitha Achere**

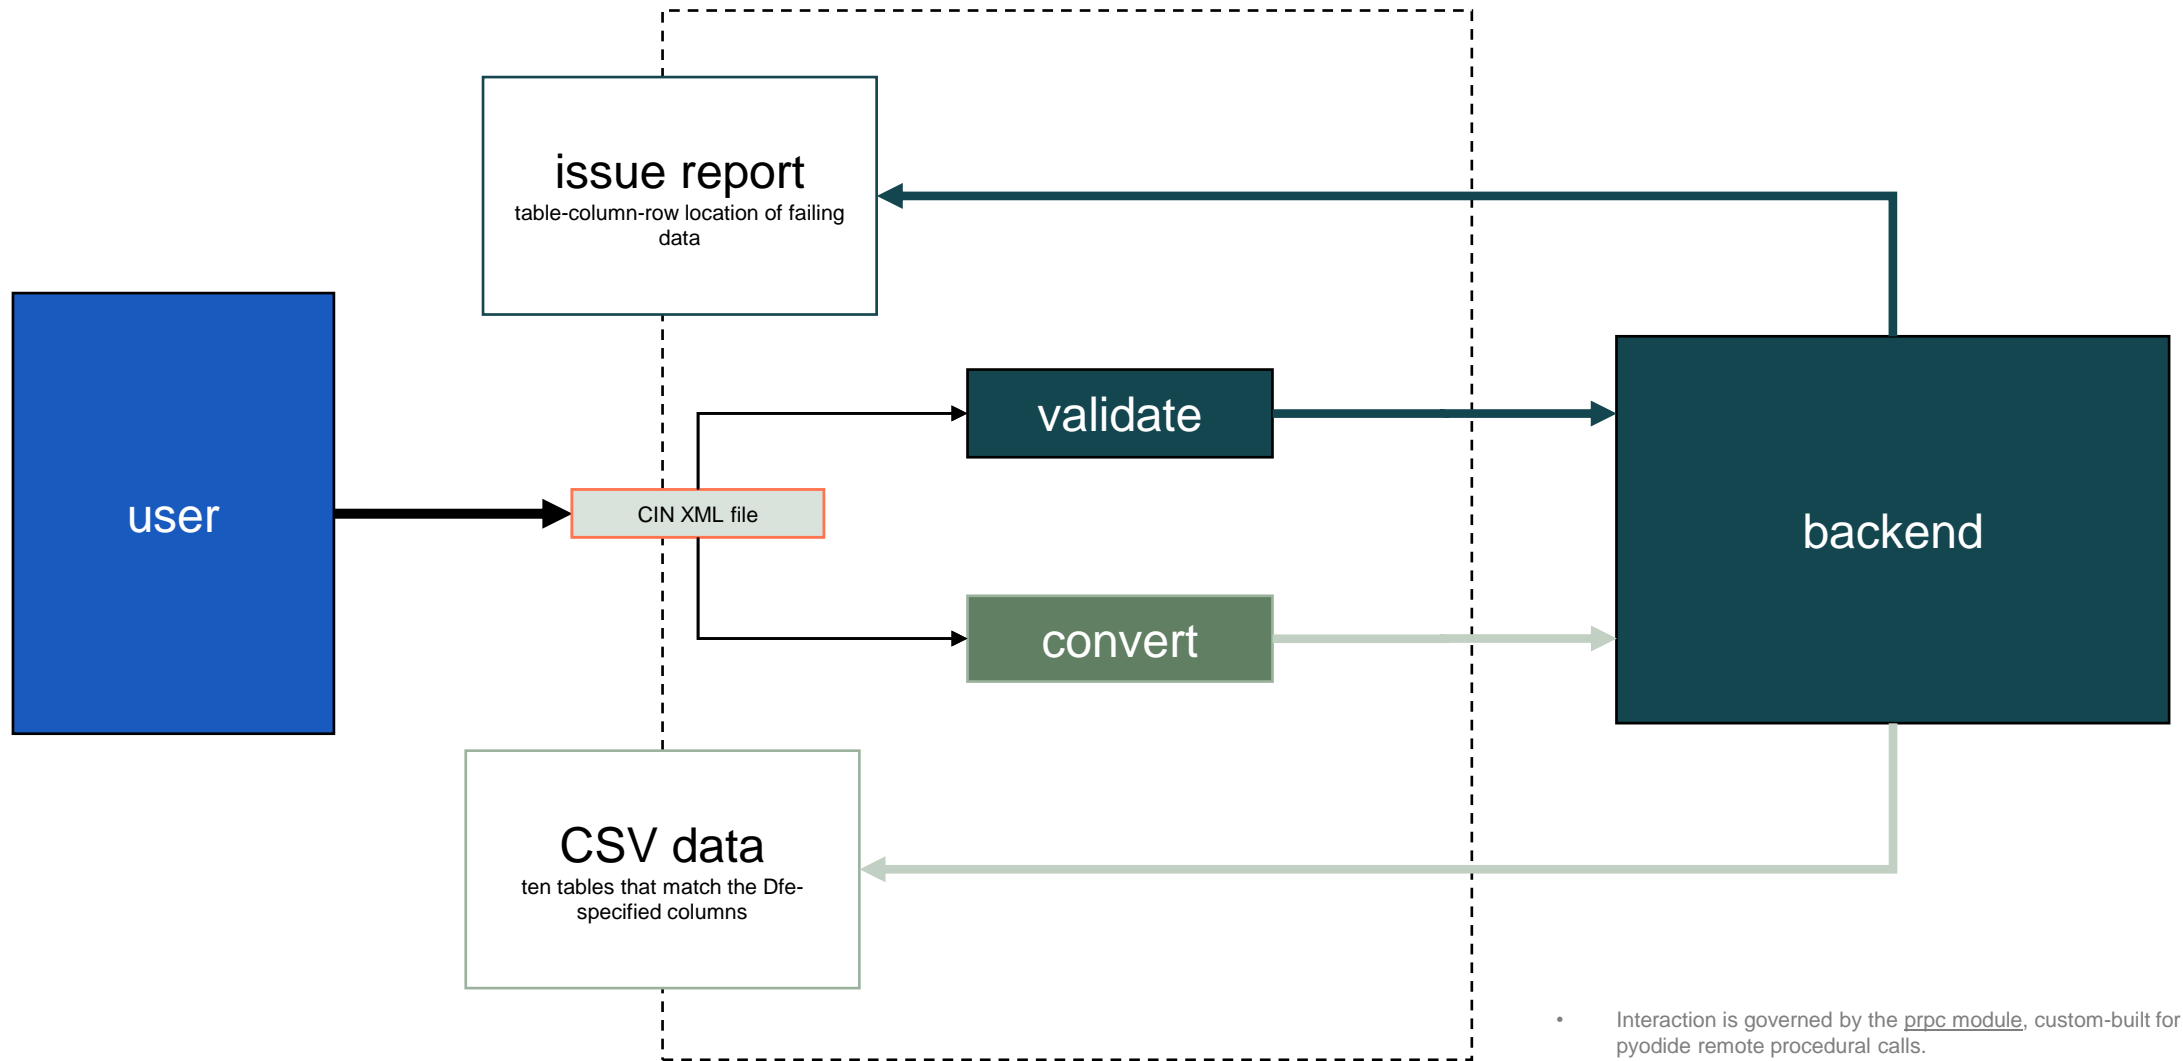

**William Levack-Payne (Data to Insight)**

January 20<sup>th</sup> , 2023

# CIN

- 
- Children in need census.
  - <https://github.com/data-to-insight/CIN-validator>

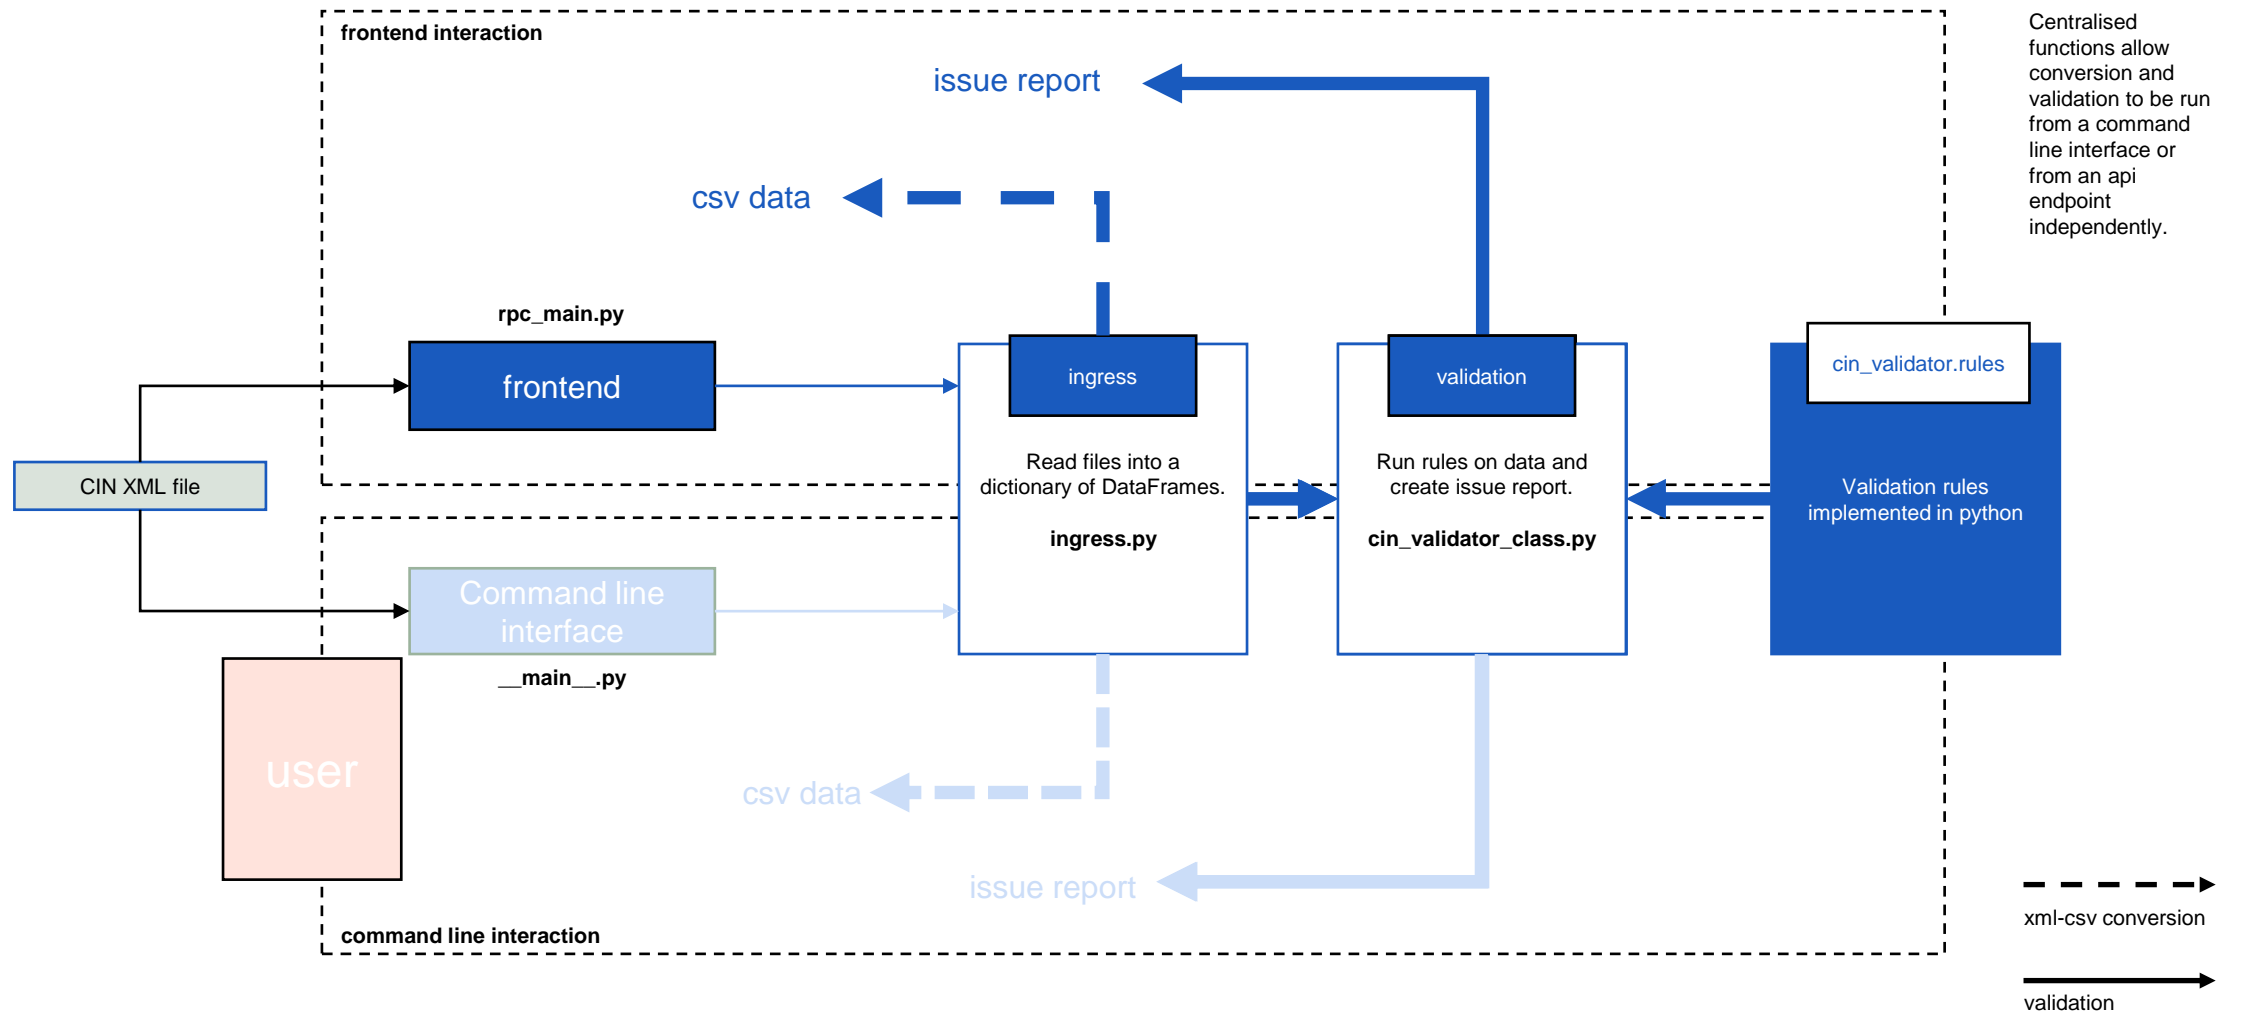

- Interaction is governed by the `prpc module`, custom-built for pyodide remote procedural calls.
- Frontend processes location linking based on issue IDs in the issue report.
- XML-CSV conversion is independent of the validation process.

## The Frontend – Backend interaction

# The Backend

4

# Thank you.
